

# Addition

## Grade 3

Name: Date: 

### Solve the word problems.

(1) A farmer has 205 chickens and 132 sheep.  
How many animals does he have on his farm altogether?

$$\boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

(2) George has 139 stamps.  
Susan has 105 more than George.

(a) How many stamps does Susan have?

$$\boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

(b) How many stamps do they have altogether?

$$\boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

(2) Alice has 98 books.  
Mark has 120 more than Alice.  
How many books does Mark have?
