

Translations :Add two on each x, and y axis (move each dot right two, and up two). Write the new coordinates in the box above the red dot.

The Math equation will be: The 'x' coordinate +2, and the 'y' coordinate + 2

Eg: -3,2

= (-3 + 2), (2+2)

= -1, 4

eg: 5, 7

= (5+2), (7+2)

= 7, 9

Eg: -9, -5

= (-9+ 2), (-5+2)

= -7, -3

eg: 8, -4

=: (8+2), (-4+2)

=10, -2
