

## STEM ACTIVITY

Instruction: Read the information and answer the questions

### Exercise 1.3 Why do we need a skeleton?

In this exercise, you will find information from a bar chart.

Nasreen measured the length of the upper arm bone of some people in her family. She drew this bar chart to show her results. Use the bar chart to answer the questions.

MEASURE THE LENGTH OF THE UPPER ARM BONE

1 Who had the longest upper arm bone?

---

2 How long is the shortest upper arm bone?

---
