1 Read the class discussion about space exploration. Try to complete the missing words. Then listen and check your answers.

**Teacher:** In our last lesson we learned about the <sup>1</sup> \_\_\_\_\_ in our solar system. Today we're going to talk about space exploration. What's your opinion on exploring space, Anna?

**Anna:** I think we should keep on exploring space. We've already seen what Mars is like and I'm sure one day, people will live on Mars. Perhaps there's <sup>2</sup> \_\_\_\_\_ there already!

**Teacher:** What do you think, Olivia?

**Olivia:** I think we should send robots to all the planets in our <sup>3</sup> \_\_\_\_\_, to find out more about them.

**Anna:** Why not send people instead of robots?

**Olivia:** Well, because it's dangerous, so it's better to send robots.

**Teacher:** Does anybody think that people will go into space <sup>4</sup> \_\_\_\_\_? There is already space tourism, people going into space just for the fun of it.

**Cristina:** Yes, I think space tourism will be really popular in the future. I'd love to go up into space in a <sup>5</sup> \_\_\_\_\_.

**Teacher:** What other possibilities are there for space exploration? Tammy, what do you think?

**Tammy:** I think one day criminals will be sent to another planet or to a <sup>6</sup> \_\_\_\_\_, rather than to a prison here.

**Cristina:** What?! That's a crazy idea.

**Tammy:** Why? Two hundred years ago criminals were sent to Australia in <sup>7</sup> \_\_\_\_\_. What's the difference?

**Teacher:** Well, that's an interesting idea, Tammy. Nicole, what do you think is the most important reason for exploring space?

**Nicole:** Well, I think that we will have to find other places to live in the solar system because there won't be enough room on <sup>8</sup> \_\_\_\_\_.
