PART 3 Questions 11-15

For each question, choose the correct answer.

Getting fit and slim

I know that many people, myself included, each year make a promise to themselves to get fit and slim, join a gym and start a diet. But what happens to these gym visits and the lettuce diet? At least half of us who try to get fit and thinner give up after less than a month. Many people seem to blame their failure on lack of time. Lack of willpower is even more important, though.

Much of this has to do with the fact that we set unrealistic fitness goals - a flat stomach in eight weeks and a celebrity diet plan - instead of doing what we know will have the best results in the long term: exercising a bit more and eating a bit less. Most fitness clubs get many new members from January to March, but their use of the gym tends to decline after that. So how can someone beat the temptation to give up? First, no one should expect to fail as soon as they start; we must stay positive, even if we've failed before.

Many people are fooled into believing that they really need to follow an expensive fitness and eating plan. But this is simply not true. The only correct answer seems to be to search for the thing that really interests and motivates you. It's fine to have many small motivations, but you should write them down and put them together to make a list of things to keep you going.

You also need to change the way you think about things. Women, for example, feel particularly guilty about exercising two or three hours a week, thinking this is 'selfish time' that takes them away from responsibilities to family and friends. But it is much better to see this as vital 'self-care' time. Many people also think that three hours is a lot of time out of their ordinary week, but as we spend around 98 hours a week awake, that leaves us nearly 95 hours to do everything else that we need to do.

11. What is true of most people at the start of the year?
 - A. They have already given up getting fit.
 - B. They are not sure whether they'll continue exercising.
 - C. They decide to make an effort to get fit.
 - D. They are too bored to start exercising.
12. What is the main reason why people give up exercising?
 - A. They haven't got enough time.
 - B. They have no one to exercise with them.
 - C. They do not really want to do it.
 - D. They have tried too many times before.
13. Another reason why people quit a fitness programme is that
 - A. they have achieved their goals.
 - B. they expect too much of themselves.
 - C. they become too tired.
 - D. they can't afford to continue.
14. In order to continue a successful fitness programme
 - A. you need to find a strong and lasting reason.
 - B. you need a friend to exercise with.
 - C. you can't avoid suffering for many hours.
 - D. your friends and family will have to suffer.
15. What would the writer say about exercise?

A. It isn't actually worth all this effort because of how slow the results are.	B. No one should overexert themselves because it does not make much difference.
C. Going to the gym is a waste of time and very boring.	D. If you really want to get fit, you need to find the time and a reason why and then commit to it.

PART 4 Questions 16-20

Five sentences have been removed from the text below. For each question, choose the correct answer.
There are three extra sentences which you do not need to use.

Don't drink the water!

People often don't think about the water they drink. However, it's a very different story if we are travelling abroad. In some countries the water is simply not safe to drink. **16**

Try to learn anything you can about the water ^{tình trạng} situation of the place where you are travelling. ^{không an toàn} The health problems from drinking unsafe water can often be really serious if you don't. ^{nguy hiểm}

The water you need to worry about is water that could be dirty. Unsafe water does not actually mean it will kill you.

Local people can drink the water where they live and are fine because their bodies are used to it. **17**

Even a tiny amount can have unpleasant ^{l lượng nhỏ} results. On your travels it's best to ask the locals about the quality of the ^{khó chịu} tap water. These are the people who are living there, so they are your best guide. ^{hậu quả}

18 If the water is unsafe, there will usually be a notice in your room. This also means you should not clean your teeth with tap water. And, of course, don't take any pills with it. Use bottled water instead. ^{thông báo} ^{thuốc} ^{nước đóng chai}

Another danger, of course, could be swimming. Check that natural water lakes and rivers are safe before you swim. And don't open your mouth when swimming! **19** It's the same tap water! ^{mỗi nguy cơ} ^{miệng}

What many people don't consider until it's too late is food which has not been cooked; salad or fruit, for example. ^{cần nhắc}

20 So only eat food which has been cooked or that has an outside peel or skin (like an orange or banana) which you can remove. And finally, don't have ice in your drinks! Remember, before it became ice, it was tap water! ^{vỏ} ^{đá} ^{bỏ đi}

- A. It will have been washed in water.
- B. Of course, food in other countries can be delicious.
- C. So you must get all the relevant information.
- D. They can't eat and drink without worrying.
- E. Of course, your hotel will let you know if the water isn't safe to drink.
- F. Also remember to keep it closed in the shower, too.
- G. Drinking from rivers and lakes by mistake cannot cause any serious harm.
- H. But yours is not, so you could get seriously ill.

PART 5 Questions 21-26

For each question, choose the correct answer.

Tomatoes - the whole truth

Leading scientists have (21)..... that tomatoes can be of great ^{lợi ích} benefit to our health. A lot of (22)..... ^{giảm nguy cơ ung thư} has been done in recent years, trying to understand why that is. It now seems that it's the whole tomato that may lower cancer risks, not parts of it, according to some new studies.

^{chuyên gia} Experts have (23)..... ^{hợp chất chống lão hóa} that simply taking the antioxidant lycopene - a substance which ^{chất thực phẩm chức năng} is found in tomatoes but is highly popular as a health food supplement because of its link to a(n) (24)..... ^{ngược} risk of cancer - did not work as well as eating whole tomatoes.

This is why scientists today believe that people should eat tomatoes in pastas, salads, tomato juice and pizza, rather than take supplements. Recent findings suggest that the risks of poor eating (25)..... ^{hơn là} cannot simply be reversed with a pill.

We shouldn't (26)..... ^{phức tạp} easy solutions to a complex problem.

PART 6 Questions 27-32

For each question, write the correct answer. Write ONE word for each gap.

Changing attitudes

Every culture has its own traditional ways of celebrating the birth of a child. In the Indian village of Piplantri, for instance, baby girls are an opportunity to plant 111 trees.

In most Indian villages, daughters (27)..... considered a problem. There still exists an old marriage system: this means the parents of the girl must give a 'dowry' when the time comes for a girl to marry. In (28)..... words, property or money. This means the marriage of a girl costs a lot.

However, the practice of planting trees completely goes against this idea. (29)..... celebrating girls in this way, the villagers hope to change attitudes. When born, daughters are given money by the villagers (30)..... that they can be independent when they grow up.

The parents (31)..... to agree that the girls will be educated and that they will not get married (32)..... they are eighteen. And of course, the 111 trees have to be cared for! So, both the women of tomorrow and the local environment benefit to a great extent.
