

Lessons 9–10 **Space exploration: the past and the future**

**1** Find the words in the text on space exploration for these things.

1 \_\_\_\_\_

2 \_\_\_\_\_

3 \_\_\_\_\_

4 \_\_\_\_\_

5 \_\_\_\_\_

**2** Use words from the text to complete these sentences.

• gravity • knowledge • planets • research • universe • unmanned

- 1 All of the \_\_\_\_\_ go around the sun. It takes the Earth 365 days to complete its journey.
- 2 All of the explorations of Mars have been done with \_\_\_\_\_ spacecraft.
- 3 Scientists always want to increase their \_\_\_\_\_ of what happens and why.
- 4 When there is no \_\_\_\_\_, things float rather than fall.
- 5 If there is no more space exploration, we will never learn more about our \_\_\_\_\_.
- 6 Some scientists are very lucky to do their \_\_\_\_\_ on the International Space Station.
