Read and match the pictures below with the tips in the text

BE A GOOD FAN

Decide what or who you want to become a fan of.

1. Sports: Try picking a team or athlete that is from your birthplace. This gives you a connection between you and the athlete or team.
2. Music: Check out the musical group or singer whose music you really like. What music makes you smile or your heart pump?
3. Political figures: Pick one who, in your opinion, best represents you. Someone you think may be a good candidate for many people.
4. Celebrities: If you want to join an actor's fan club, but you aren't sure who to choose, see whose acting and lifestyle are the best.

Listen or read.

5. Listen to or read all the material you can about the person or people you want to become a fan of. This will help you be familiar with everything about that person or group.

Be like the others.

6. If it's safe, (remember: **only if safe**) try to attend a live event. You will surely enjoy the experience.
7. Dress like other fans, dress up as your favorite person or character or wear team colors.
8. Paint your face. This will make you feel like a true fan.

Last but not least.

9. Not everybody enjoys the same things as you. If others don't support your team, enjoy the same songs or read the same books, learn to accept it!
