My trip to Australia

11/12/2013 - Georgia Wilson

As a Travel Advisor with Gap 360 I can always count on being asked these three questions:

'Do you get to travel a lot with your job?'

'Where are you off to next?'

'What's your favourite destination?'

Hello everyone

I am lucky enough to enjoy a one-month-trip up the East Coast of Australia. I have already visited many cities and I am having the best time of my life. The trip is so amazing!

First stop was Spot X for a week of surfing! So far, this has been my favourite part of the trip. I love surfing! I have had such a fun time! Unfortunately, I haven't tried paddle-boarding yet. I have already been to Fraser Island, too. It's the world's largest island. Spending 3 days here is enough to see all the sights: swimming in the beautiful lakes, trekking through the sub-tropical rainforest, spotting wildlife and learning about the fascinating history behind the island. (...)

Last but not least, Cairns! I have dived the incredible Barrier Reef! And I have gone white water rafting down the Barron River, too! I haven't had a hot-air balloon ride yet, but that's definitely on my bucket list!

I am loving every minute of my experience, but I'm sure the next days will be even better. I haven't been to Sydney yet!
