READ

Read the text and answer the questions.

Twitter is one of the most popular and fastest growing websites in the world today. In fact, it's the third most popular social networking website on the Internet after *Facebook* and *Instagram*. *Twitter* isn't just about finding friends online. It's about getting the latest news as fast as possible. Many people call it the "SMS of the Internet." *Twitter* is something like a blog and a news site. You receive updates as soon as someone puts them on *Twitter*. When you get a new update, or "Tweet," the website sends it to your mobile, too. That way, you know what's happening in the world before anyone else! The website started in 2006 and *Twitter* already has about 1500 million users, including presidents, politicians, celebrities, and college professors. *Twitter* is going to be one of the most important ways of communicating and receiving news in the future.

1. What can you do on *Twitter*?

2. What is another name for *Twitter*?

3. How can you receive an update on *Twitter* if you are not near a computer?

4. How many people are using *Twitter* today?
