2. LISTEN to the song and WRITE the words that are missing:

PHOTOSYNTHESIS

If you want to know
how a plant grows.
It takes_____, air and sunlight
and makes cellulose.

_____ plant can do this
fundamental process.
And we can call this
Photosynthesis.

Unlike me and you
plants _____ CO_2.
And they make _____
that stops us turning blue.

_____ plant can do this
fundamental process.
And we can call this
Photosynthesis.

It's a miracle
how all the chlorophyll
captures sunlight in the _____
of the plants and the _____.

A plant of any size
can do it if it tries.

But we're not _____
so we can't photosynthesize.

_____ plant can do this
fundamental process.
And we can call this
Photosynthesis.

It's a miracle
how all the chlorophyll
captures sunlight in the _____
of the plants and the _____.

_____ plant can do this
fundamental process.
And we can call this
Photosynthesis.

_____ plant can do this
fundamental process.
And we can call this
Pho-to-syn-the-sis.
Photosynthesi
