

## LAST DANCE

My heart was born a radical  
electric and dynamical  
I've never listened **to in** the remedies  
but no forevers no eternities

Holding on beyond the **night right**  
for a shadow that feels right  
holding on beyond the night  
to you

If the dreams we made are made of fire  
I would give a life just to live the dream again  
if our hearts are hanging on a **wire liar**  
let's forget the world **below before** and dance  
until the end

Let's dance  
Our last dance  
Rocking romance  
This ain't our **last first** dance  
Let's dance!  
Ooh oh oh

My heart was born in neon **lights nights**  
floating in space like satellites  
looking for signs of life tonight  
as we collide in black and white

Holding on beyond the **night right**  
for a shadow that feels right  
holding on beyond the night  
to you  
If the dreams we made are made of fire  
I would give a life just to live the **dream stream** again

Let's dance  
Our last dance  
Rocking romance

This ain't our last dance  
Let's dance!  
Ooh oh oh  
This ain't our last dance

Take a deeper breath before we touch  
running out of time let's use it up  
hold me before the **morning mourning** comes

Let's dance  
Ooh oh oh  
Rocking romance  
This ain't our last dance  
Let's dance!
