"Despicable Me" is one of the funniest films I have ever watched. It is an (1)_____ movie, which was released by Universal Studio in 2010. There are some (2)_____ characters in the story: a man named Gru who wants to be the biggest villain of all time, Doctor Nefario and the Minions who assist Gru to fulfil his goal, Margo, Edith and Agnes who later on become Gru's children, and Vector who is Gru's (3)_____.

The story begins when Gru is unhappy because he (4)_____ that there is another super villain who can steal the Great Pyramid of Giza. To restore his fame, he sets an ambitious aim to steal the (5)_____. To do that, he needs a shrink ray gun and a spaceship. A lot of things happen. Gru adopts Margo, Edith and Agnes to break into Vector's house to steal the gun. He also builds his own spaceship. However, after being with the girls, Gru realizes that he wants to be with them. In the end, Gru chooses to live a normal life with his three (6)_____.

My favourite character is Gru because he is really brave and (7)_____ whenever he does something. Moreover, he is a good father. Even though the film is about a (8)_____ as the main character, the story is really hilarious, and it teaches people not to (9)_____, and that it is never too late to change and do the right thing. I really like the movie, and I highly recommend people of all (10)_____ who like animation to watch the film.
