- 5) Where does it live?
- 6) What does it eat?

3. Read and complete the charts.

H. Read the articles and complete the charts.

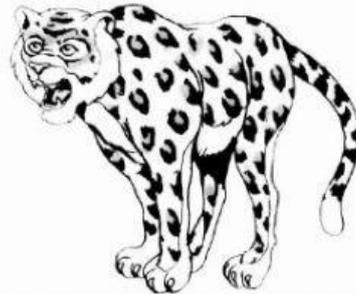

Pandas are mammals and they live in bamboo forests in the mountains of central China. They can climb trees and move quite quickly and silently, but they can't see very well. Pandas have got thick fur to keep them warm. They've got a black and white body, black ears and black eye patches. They weigh from 100 to 150 kilos. Pandas eat bamboo, fruit, flowers and vegetables and they spend most of their time eating. They live for about 12 to 15 years.
