

Name: _____

The internet. A friend or enemy?

The internet is an important part of our lives now. It helps students a lot when they study. You don't need to go to the library to get a book or information. There are many sites where you can find many e-books. If you are going to make a school Project you can surf the net and get information on any topic. Doing shopping, buying tickets, watching popular videos, sharing interesting ideas, communicating, downloading music, are the things you can do online. Can you live without the internet? It seems you can do everything on the net. But is it good to spend so much time in the internet?

For today's teenagers there is practically no line between online and real world communication. They chat online, make friends online, fall in love online, in fact, they live online!

Children can become internet addicted. Internet addiction is a disease and it has many symptoms.

These are some of them:

- Spending too much time in the internet
- Having problems doing homework because you are online all the time
- Isolation from family and friends
- Feeling happy while you have wi fi and getting angry when you are offline

So, instead of going camping and killing monsters online, you might enjoy some fresh air and connect with nature. Surely, that is the best option for you.

True or False
