

## Arithmetic: Grammar

- B Study the Grammar Box. Find and underline imperative forms in the text opposite.**

### Giving instructions

We use the **imperative** to give instructions.

#### Example:

*Do a calculation.*

*Press the delete key.*

We make the negative with **Don't + imperative**.

#### Example:

*Don't clear the screen.*

- C Complete these instructions with a word from the box in each space. You can use the same word more than once.**
