

## Vocabulary Unit 4

### Reading Comprehension: Infers

1. Choose the correct alternative that completes the statements:

occipital – injuries – layer – believes – toes – medulla – cerebrum – lobes

- Strangely, no one \_\_\_\_\_ us when we told them we had seen some angels.
- The \_\_\_\_\_ controls basic body functions.
- Those high heels hurt my \_\_\_\_\_. I can't stand them.
- Look a thick \_\_\_\_\_ of snow covered the street.
- The cerebral cortex is divided into \_\_\_\_\_.
- She sustained multiple \_\_\_\_\_ when she fell off the roof.

2. Complete the following text using the appropriate word:

temporal – cerebrum – hemisphere – spinal cord – cerebellum – lobes

In class, we have talked about the brain. We identified three main ones:

- The \_\_\_\_\_, which is the largest part of the brain and is composed of right and left \_\_\_\_\_.
- The \_\_\_\_\_ controls balance, movement, and coordination (how your muscles work together).
- The brainstem connects the rest of the brain to the \_\_\_\_\_.

Each one of them has different functions and all of them are quite important.

**You are doing a great job!**
