

## Listen, read and find

Andrew, Nick, Sophia and Betty are at the Sea Turtle Rescue Centre. They are watching a video about the Sea Turtle. Listen, read and find out: "Where does *caretta caretta* lay its eggs?"

..... the loggerhead sea turtle or *caretta caretta* lives in the Mediterranean Sea and nests in Greece. It is about one metre long and weighs about a hundred kilos. Its shell is red-brown, it has got lungs and breathes air and moves with its front and rear flippers. It lays its eggs on land, on beaches in Zakynthos, Peloponnesus and Crete. Each sea turtle lays about 115 eggs every two or three years, but there are many dangers for the baby turtles. Only one out of a thousand baby sea turtles survives and there are only about 4,000 *caretta caretta* sea turtles in Greece today.....
