THE NATURE OF SCIENCE

- What kind of skills do scientists use?

1. Read and complete the statements

Different Ways to Learn

Scientists learn about the world around them. They use their **senses**.

Scientists do **experiments** to learn. They carry out experiments again and again to make sure they get the same **results**.

Scientists learn from each other, too. They ask each other, "How do you know?" and share what they learn. They give answers. They tell how they know

experiments each other senses

Scientists carry out

Scientists use their

Scientists learn from

2. Read and match the questions with their answers

1. Why do scientists repeat their experiments?

2. Why do scientists use their senses?

3. Why do scientists share what they learn?

To help answer each other's questions.

To make sure the results are the same.

To learn about the world around them.
