STUDY 1: MODALS AND PAST PERFECT: PAST MODAL FORM

These past modal verbs are all used hypothetically, to talk about things that didn't really happen in the past.

Could have + past participle

1: Could have + past participle means that **something was possible in the past, or you had the ability to do something in the past**, but that you didn't do it.

I could have stayed up late, but I decided to go to bed early.

↓ ↓
Modal Present Perfect

Couldn't have + past participle

means that something wasn't possible in the past, even if you had wanted to do it.

2: We use **could have + past participle** when we want to make a guess about something that happened in the past. In this case, **we don't know if what we're saying is true or not true**. We're just talking about our opinion of what maybe happened.

Why is John late?

We can also choose to use **might have + past participle** to mean the same thing:

- He could have got stuck in traffic.
- He could have forgotten that we were meeting today.
- He could have overslept.
- He might have got stuck in traffic.
- He might have forgotten that we were meeting today.
- He might have overslept.

Should have + past participle

1: Should have + past participle can mean something that **would have been a good idea**, but that you didn't do it. It's like **giving advice about the past** when you say it to someone else, or **regretting what you did or didn't do** when you're talking about yourself.

We can also use this to talk about something that would have happened if everything was fine, but hasn't happened.

Shouldn't have + past participle

means that something wasn't a good idea, but you did it anyway.

I should have studied harder! (= I didn't study very hard and so I failed the exam. I'm sorry about this now.)

Would have + past participle

1: Part of the third conditional.

If I had had enough money, I would have bought a car

(but I didn't have enough money, so I didn't buy a car) ☹

2: We can also use **would have + past participle** to talk about **something you wanted to do but didn't**. This is very similar to the third conditional.

(I wanted to go to the party, but I didn't because I was busy)
