

4- For food?

I will research the whole world.

Continue training for the oral text. Around the world and back

4a) Check what you know. If you tick X you need to practice, practice, practice

Ask and answer questions about nutrition, food (vocabulary, countable, uncountable), recipes (containers and quantities), etc. (2nd worksheet: foods and recipes, exercise 5d).

Make a shopping list, know the food groups and tell how much do you spend (cheap, expensive) in food.

Now, we are going to learn how to describe countries and food from around the world. And we can cook that food together. Do you want to? In the oral exam you will have to tell us about a country, give us a traditional recipe from that country and from your country (Argentina) and describe a landmark. But you are going to practice, practice, practice and you are going to do great!!!

4b) Fact files for countries. Look at the example. Choose three countries and complete their fact files. Copy the fact files in your copy book

4c) Send me and audio reading my text and my questions and answers about Argentina.

This is Argentina, it is a country in South America. I live in Argentina, I am from Cordoba but I live in El Calafate

Argentina is a very large country; it has two million seven hundred thousand square kilometers. The weather, from north to south is hot, worm and cold. In El Calafate is very cold. In some provinces it rains a lot, in others it is very dry. Forty-five million people live in this country.

The official language is Spanish but many people speak English too. The flag has got three stripes, the top is light blue , the middle is white with a yellow sun, and the bottom is light blue.

Argentinian food is delicious, we cook “duce de leche” it is like a milk jam, asado (meat , chicken, and vegetable barbecue), locro and buseca, empanadas, alfajores de maicena and colaciones. My favorites are: mate, barbecue, locro and buseca.

I love my country but I want to travel around the world. Do you want to visit Argentina?
