

Memorial Day Math

1. I can fit 4 rows of 4 burgers on my grill. How many burgers can I cook at a time?

4	8	16
---	---	----

2. In Arlington National Cemetery, people place flags in front of the tombstones on Memorial Day. If there are 10 rows of 10 tombstones, how many flags do I need?

$$10 \times 10 = \underline{\quad\quad}$$

or

$$10 + 10 + 10 + 10 + 10 + 10 + 10 + 10 + 10 + 10 = \underline{\quad\quad}$$

100	150	20
-----	-----	----

3. I am making blue and red jello for memorial day. How much will both packs of Jello cost?

\$1.50

\$ 1.50

\$1.00	\$2.50	\$3.00
---------------	---------------	---------------

4. I am buying Firecracker Ice Pops for Memorial Day. If I am having 50 people over for Memorial day, and each box of Firecrackers has 10 pops, how many boxes do I need to buy?

$$50 \div 10 =$$

5 boxes	60 boxes	150 boxes
---------	----------	-----------
