

**MATH**  
**FINAL TEST – FOURTH QUARTER**

STUDENT'S NAME: \_\_\_\_\_

## Short Division

1.  
2 4 1

3.				
9	3	9	9	

## MULTIPLICATION

1.				
		-	6	1
x				3

2.		2	3	2
x				6

3.			1	4
x				8

4.		9	6	9
x				5

**WORD PROBLEMS:** Read carefully and understand the word problem to perform the correct operation and find the correct answer for each problem Solving.

1. Each glass of fresh apple juice made at the café requires the juice of four apples. If they have 391 apples, how many full glasses of juice can they make?

2. Bilal and Georgina are planting seeds. They have 863 to plant and they decide to plant eight in each pot. How many pots will they need altogether?
