

## PART 7

### I. The children learnt this at school today. Complete the sentences.

1. If people \_\_\_\_\_ (to use) too much gas and electricity every day, they \_\_\_\_\_ (to produce) a lot of carbon dioxide.
2. Carbon dioxide \_\_\_\_\_ (to be) reduced if there \_\_\_\_\_ (to be) plenty of trees.
3. If people \_\_\_\_\_ (not to protect) forests, the level of carbon dioxide \_\_\_\_\_ (to rise).
4. If temperatures \_\_\_\_\_ (go up), sea levels \_\_\_\_\_ (rise).

### J. This is what the teacher told the children. Complete using the words in the box.

MUCH                    IS THERE                    SOME                    MANY                    THERE ARE

"\_\_\_\_\_ several ways in which people produce carbon dioxide, almost every human activity leaves a carbon footprint, and how\_\_\_\_\_ CO2 we produce in the future depends on what we do today.

Lots of animals are endangered and \_\_\_\_\_ are now extinct. Their habitats are disappearing. These places are now used for farming or they are destroyed just to sell the wood from trees.

Think of this: How \_\_\_\_\_ sheets of paper have you used today?  
\_\_\_\_\_ anything you can do to help?"
