

CARING FOR THE ENVIRONMENT

1. Match the trash to its correct bin.

2. Select the things you would give your plants to grow strong.

Sun

Donut

Air

Water

Eggs

Sandwich

Juice

Soil with nutrients

3. Select the things we can do to save the environment.

- Take showers instead of baths.

- Wash the car every day and waste a lot of water.

- Throw trash in the toilets.

- Fix taps that are leaking.

- Turn the tap off while brushing your teeth.

- Plant trees

- Leave the light on when you leave the room.

- Ride a bike more and drive less.
