

# SCIENCE WORKSHEET

## CLASS 3

**Q1. Read the following passage and answer the questions that follow.**

On a fine Saturday afternoon, Naman was going for a picnic to the Mughal Garden along with his family. On his way, he saw many trees, some of them being Banyan and Peepal. He had studied that trees live for many years and provide shade to humans and animals. Naman's mother is also very fond of plants. She had planted Rose and Money Plant in beautiful pots, in their balcony.

When Naman's family reached their destination, they felt very hot in the harsh Sun and hence they all decided to eat ice cream. Then they went inside the garden and were amazed to see the variety of trees, shrubs, flowers and herbs and the musical fountain. The chirping of birds all around made their experience even more joyful.

While returning home, they all ate chips and samosas. Everyone was tired but they had all thoroughly enjoyed the day.

a) Which two trees did Naman see on his way to the Mughal Garden?

\_\_\_\_\_ , \_\_\_\_\_

b) Name a climber that Naman's mother had planted?

\_\_\_\_\_

c) Name a pleasant sound which Naman's family experienced inside the Mughal Garden.

\_\_\_\_\_

d) Name 2 salty things from the above passage.

\_\_\_\_\_ , \_\_\_\_\_

## Q2. Fill in the given blanks

i) Our body organs which help us to sense various things present around us are called \_\_\_\_\_.

ii) Pumpkin and Cucumber are examples of \_\_\_\_\_.

iii) \_\_\_\_\_ helps us to stay calm and quiet.

iv) The largest organ of our body is \_\_\_\_\_.

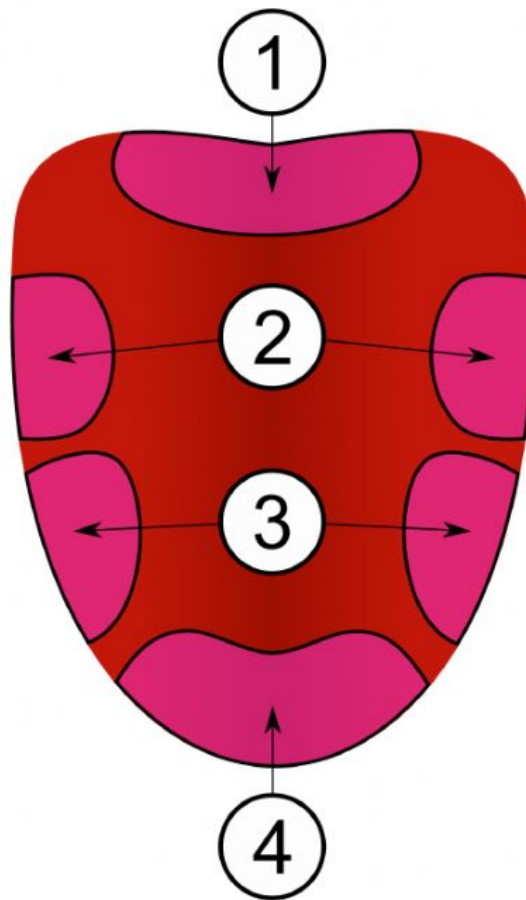

v) The green coloured substance present in leaves is called \_\_\_\_\_.

**Q3. Match the following and write the correct option(a,b,c,d,e) in the box provided.**

<b>a) Root</b>	<b>Makes food for the plant</b>
<b>b) Leaf</b>	<b>Mango</b>
<b>c) Fruit</b>	<b>Look like bushes</b>
<b>d) Tree</b>	<b>Fixes the plant in the soil</b>
<b>e) Shrubs</b>	<b>Stores the seeds</b>

Q3. Label the given diagram

1) \_\_\_\_\_

2) \_\_\_\_\_

3) \_\_\_\_\_

4) \_\_\_\_\_
