

Practica 5 Juxpaint

Une los tipos de letras con las que corresponde, sigue el ejemplo, puedes usar los colores de las letras

The screenshot shows the Tux Paint application window. On the left is the 'Herramientas' (Tools) toolbar with icons for drawing, text, and editing. Below it is the 'Colores' (Colors) palette. On the right is the 'Letras' (Letters) palette, which contains 'Aa' buttons in various colors and styles. The main drawing area contains the word 'Niños' written in several different colors and fonts: red, green, brown, orange, purple, and blue. A blue arrow originates from the first 'Aa' button in the 'Letras' palette and points to the word 'Niños' in the drawing area. At the bottom, there is a text instruction: 'Escoge un estilo de texto. Haz click en tu dibujo para empezar a escribir. Presiona [Enter] o [Tab] cuando hayas acabado.' and the 'LIVEWORKSHEETS' logo.
