

Continuar las series ARRASTRANDO LAS REGLETAS y SOLTANDOLAS en el lugar correcto.

Visual representation of a pattern recognition task using colored blocks and a grid.

The top section shows three rows of blocks:

- Row 1: Four red blocks (each 2 units wide), followed by five green blocks (each 3 units wide).
- Row 2: One green block (3 units wide), followed by two green blocks (2 units wide), then five magenta blocks (each 1 unit wide), and finally five green blocks (each 1 unit wide).
- Row 3: Four empty white squares (1 unit wide), followed by two green blocks (2 units wide), then five magenta blocks (each 1 unit wide), and finally five green blocks (each 1 unit wide).

Below the blocks are two large grids for placing the blocks:

- The first grid is a 5x20 grid. The first column has a magenta block (1 unit wide) in the top row. The second column has a magenta block (1 unit wide) in the top row. The third column has a green block (1 unit wide) in the top row. The fourth column has a green block (1 unit wide) in the top row. The fifth column has a green block (1 unit wide) in the top row. The sixth column has a green block (1 unit wide) in the top row.
- The second grid is a 5x20 grid. The first column has a green block (1 unit wide) in the top row. The second column has a green block (1 unit wide) in the top row. The third column has a green block (1 unit wide) in the top row. The fourth column has a green block (1 unit wide) in the top row. The fifth column has a green block (1 unit wide) in the top row. The sixth column has a green block (1 unit wide) in the top row. The seventh column has a green block (1 unit wide) in the top row. The eighth column has a green block (1 unit wide) in the top row. The ninth column has a green block (1 unit wide) in the top row. The tenth column has a green block (1 unit wide) in the top row. The eleventh column has a green block (1 unit wide) in the top row. The twelfth column has a green block (1 unit wide) in the top row. The thirteenth column has a green block (1 unit wide) in the top row. The fourteenth column has a green block (1 unit wide) in the top row. The fifteenth column has a green block (1 unit wide) in the top row. The sixteenth column has a green block (1 unit wide) in the top row. The seventeenth column has a green block (1 unit wide) in the top row. The eighteenth column has a green block (1 unit wide) in the top row. The nineteenth column has a green block (1 unit wide) in the top row. The twentieth column has a green block (1 unit wide) in the top row.
