Pirates are dangerous **adventurers** who sail across the **seas**. They attack other ships to steal valuable things from them. You can identify a pirate ship because of its flag that usually has a skull with crossbones, known as a Jolly Roger. Pirates have existed since the 14th century and some of the most famous are Blackbeard and Captain Kidd. Pirate ships were usually small and faster than other ships. This helped them to **overtake** merchant ships that were slow and heavy.
