- a Sharks are big fish. They are predators, and they sometimes attack people.
- b _____ are also predators, but they are birds, not fish.
- c _____ are very big. They live in the ocean and eat tiny plants and animals. They aren't fish—they're mammals.
- d _____ live in the ocean, too, and can also walk on land. They have shells, and they eat tiny plants and animals.
- e _____ live on land, too. They live all over the world, except in the polar regions. Some species like to be in the water, but others can live in the desert!
- f _____ don't have legs or shells. They live in cool, dark, wet places, like under plants in your garden.
- g _____ are any living things that eat other living things.
- h _____ don't eat living things but make their own food.
