Identifying Proper, Mixed and Improper Fractions

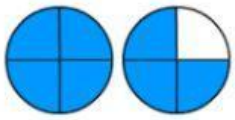

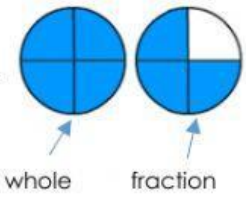

All fractions have similar features. These include the **numerator**, **denominator** and **vinculum**.

$\frac{4}{7}$

4 → Numerator
Vinculum →
7 → Denominator

4 parts out of 7 parts

There are different types of fractions. These include **proper**, **improper** and **mixed numbers**.

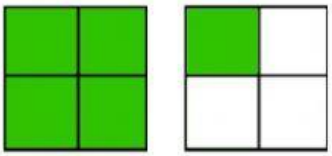

Proper	Improper	Mixed Numbers
The numerator is smaller than the denominator. Proper fractions are worth less than a whole.	**The numerator is larger than the denominator.** Improper fractions are worth more than a whole.	**Includes both whole numbers and fractions.** Mixed Numbers are worth more than a whole.
E.g. $\frac{3}{4}$ 	e.g. $\frac{7}{4}$ 	e.g $1\frac{3}{4}$ 

Type into the box to label these fractions as either **proper**, **improper** or **mixed**

$\frac{9}{10}$		$1\frac{2}{3}$	
$2\frac{1}{3}$		$\frac{100}{2}$	
$\frac{9}{7}$		$\frac{8}{15}$	
$\frac{6}{3}$		$9\frac{1}{2}$
