Guitars

The Types

CLASSIC	ACOUSTIC	ELECTRIC
Less stylish	More stylish	Super stylish
Nylon strings	Steel strings	Steel strings
Wider fret board	Thinner fret board	Needs amplifier
Smaller sound hole	Larger sound hole	No sound hole

How to play?

The Chords

BEFORE YOU START:

- Learn the chords progression of a song.
- Get to know which style to play:
- * Pick style: This is easy for beginners as you just strum every string in the chord.
- * Finger style: This is for advanced players as you need to know which string to hit as you play the notes of your chord progression.

NOW:

- Sit or stand up straight or and let the guitar head point about 30 degrees to the ceiling.
- Play your chords slowly and maintain the tempo.
- Increase the tempo as you get comfortable.

LEGEND: x = Don't Play, o = Play open, • = Play, | = Fret
