

## Vocabulary 3A

### The sea

Complete the sentences about the sea with the words in the box. There are two extra words you do not need.

currents	dive	jellyfish	sands	seaweed
shellfish	snorkel	tide	wave	

There are probably around 2,000 different species of (1) \_\_\_\_\_ in our seas, but of these only around 100 are dangerous to humans. A jellyfish can move or swim, and even (2) \_\_\_\_\_ by opening and closing its bell (a bit like an umbrella), but much of its movement is dictated by the ocean (3) \_\_\_\_\_. This is one reason why many are washed up on the (4) \_\_\_\_\_ of a beach when the (5) \_\_\_\_\_ comes in. They usually eat small fish, some (6) \_\_\_\_\_ like shrimps and zooplankton (very small animals), but they don't eat (7) \_\_\_\_\_.
