

In this exercise you will apply what you know about poles of magnets.

1. Fill in the spaces in these statements
  - a. A magnet has a north and a  pole.
  - b. Like poles  each other.
  - c. Unlike poles  each other.
  
2. For each pair of magnets, write attract or repel on the line to show which way the magnets will move. The first one has been done for you.
