Molly's life in lockdown

This is Molly. She is a 12-year-old student. She lives with her mom, her dad and her little brother. Molly doesn't go to school, but she is taking online classes this year because of the quarantine.

Sometimes she feels sad because she can't do many activities. She doesn't see her friends, she doesn't visit her grandparents and she doesn't play volleyball with her neighbors anymore.

Molly feels stressed too, because she spends many hours in front of the computer, she helps her mom at home and she has so much homework to do.

One day, Molly and her grandmother had a WhatsApp video call and Molly felt happy again. She noticed, she can do many things at home to not feel sad or stressed, so she made a list of activities she can do in lockdown.

On Mondays, she calls her friends; on Tuesdays, she dances Tik Tok videos; on Wednesdays, she reads her favorite books; on Thursdays, she watches Netflix series; on Fridays, she plays the violin; on Saturdays, she helps her mom to cook and on Sundays, she draws cartoons with her little brother.

Molly doesn't feel bad anymore, she feels very happy now!
