

States of matter

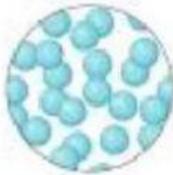

1. Write solid, liquid or gas

★ Fixed shape and fixed volume	★ The atoms are close together but they can move a bit	★ The atoms are close together and move very little
★ It expands to fill all the space	★ The atoms move freely in every direction	★ Fixed volume but no fixed shape
★ Takes the shape of the container but the volume doesn't change	★ No fixed shape and no fixed volume	

2. Match the pictures of the atoms to solid, liquid or gas:

SOLID

LIQUID

GAS
