

**PROUD** is a feeling.

If you feel proud, you feel pleased, happy about something good that you have done, or about something good that a person close to you has done.

Examples:

- I am proud to be a Vietnamese.
- I'm proud that I have done all my homework correctly!
- My father is proud of me because I'm always nice to old people.
- My class is proud of Macy because she is the first place at school in English.
- My sister is proud of her 100-point test!

Write about you or a person you love and things you are proud of that person.

(Remember: "I am proud or I'm proud" – not "Iproud" )
