

Matematik Tahun 3 - Pecahan

1 Nyatakan pecahan bagi belon:

a) merah $\frac{\quad}{\quad}$ b) biru $\frac{\quad}{\quad}$ c) kuning $\frac{\quad}{\quad}$ d) ungu $\frac{\quad}{\quad}$

2 Pilih dan sebut pecahan setara bagi pecahan yang diberi.

a $\frac{2}{3}$ b $\frac{4}{5}$ c $\frac{3}{4}$ d $\frac{6}{9}$

$\frac{4}{6}$ $\frac{1}{6}$ $\frac{8}{5}$ $\frac{8}{10}$ $\frac{4}{8}$ $\frac{6}{8}$ $\frac{2}{3}$ $\frac{3}{2}$

3 Permudahkan.

a $\frac{2}{6} = \frac{2 \div \quad}{6 \div \quad} = \frac{\quad}{\quad}$ b $\frac{4}{8} = \frac{4 \div \quad}{8 \div \quad} = \frac{\quad}{\quad}$ c $\frac{8}{10} = \frac{8 \div \quad}{10 \div \quad} = \frac{\quad}{\quad}$

4 Tulis nombor bercampur dan pecahan tak wajar.

a b c d

$\frac{\quad}{\quad} = \frac{\quad}{\quad}$ $\frac{\quad}{\quad} = \frac{\quad}{\quad}$ $\frac{\quad}{\quad} = \frac{\quad}{\quad}$ $\frac{\quad}{\quad} = \frac{\quad}{\quad}$

5 Kelaskan mengikut pecahan tak wajar atau nombor bercampur

$2\frac{1}{4}$ $\frac{6}{6}$ $3\frac{2}{9}$ $\frac{9}{4}$ $1\frac{4}{5}$ $\frac{7}{3}$ $\frac{14}{8}$ $\frac{15}{7}$

pecahan tak wajar

nombor bercampur
