

Would rather and Would prefer

Read the conversation. Is Kate in favor of donating to charities? Why or Why not?

Kate: I think we should get more involved in campaigning for social justice and equality.

Josh: Do you mean donating money to charity or something?

Kate: No, not really. I'd rather we didn't just donate money. I'd rather we took some positive action ourselves instead. You know, like collecting clothing for the homeless, or starting a food bank.

Josh: So does that mean you'd rather not work through a charity?

Kate: Yes, I think I'd prefer not to do that. I'd rather get directly involved and start our own campaign.

Josh: Yes, I'd prefer to do that, too. I think most people would prefer charities to organize campaigns, but it would be cool to start our own!
