In the library we have laptops that we can use to access the internet, but there's a very strong \_\_\_\_\_. Our schools computers are carefully controlled, a lot of social networking and music sites are \_\_\_\_\_. Students aren't allowed to access music sites or \_\_\_\_\_ on the school computers. I think it makes sense from a \_\_\_\_\_ point of view.

What about phones? Are those \_\_\_\_\_?

We don't share phone numbers in case of \_\_\_\_\_, and we have to monitor their use very closely.

We talk about it a lot in class too... responsibilities and duties and \_\_\_\_\_, above all **safety**.
