

NAME:

CLASS:

1. Find the coordinates for the questions below.

a. What are the coordinates of the points A, B and C?

A                      B                      C

b. Plot point D so that four points make a rectangle.

c. What are the coordinates of the point D?

d. On the same coordinate grid, plot these points.

E (7,6)                      F (7,8)                      G (9,8)                      H (9,6)

2. Join the above points (coordinates) and see what shape will be formed?
