

Shops / Asking for the price

B Listen, read and complete the text with one word in each space.

Last Sunday, my family and I went to the village. My mother wanted to go to the (1) to buy some things for the house, but the supermarket was closed, so mum and Sophia went to the (2) next to the chemist's. While they went shopping, dad and I went to the local market in the (3)

"(4) is that box?" dad asked.

'It's two pounds and that is a good price,' said the man.

"How much are the three boxes?" I asked.

"(5) pounds for the three," he replied.

So we bought all three boxes and then mum and Sophia arrived. We walked around the (6) and looked at some amazing things. There were a lot of old things. There was an old (7) that mum wanted, but when she asked how much it cost, we got a shock – (8) pounds!
