

Complete the text by writing one word in each blank space. The text has to be correct grammatically and logically.

reason – personally – know – way – fair – opinion

Mary,

I'm surprised to hear that you enjoy shopping so much because I truly hate it! I that it's a way of spending time with your friends, but in my, it's better to hang out somewhere else than in shopping mall. speaking, I'd rather go to the cinema or to a park with my mates. To be, I avoid shops at all cost and buy anything that I can online. One for this is that I feel like going from one shop to another is a waste of time. I feel this because whenever I go to a shopping centre, I spend the entire day there, very often without buying anything. Perhaps you're more lucky.

Talk to you soon,

Helen
