

Thermal Energy Store

Elastic Energy Store

Gravitational Potential
Energy Store

Chemical Energy Store

Kinetic Energy Store

Magnetic Energy Store

An object/substance
from which energy can
be released by a
chemical reaction

Magnets that are
attracting or repelling

The higher the
temperature, the more
of this type of energy.

Anything that is moving.

Anything in a
gravitational field
(anything that can fall)

Anything which
has been
stretched.
