### 1) Read the text.

Harry potter's life is a difficult life. When he was a baby his parents were killed by the wizard Lord Voldemort. Now he lives with his aunt, uncle and his cousin. They are bad to him. Sometimes they put him in a closet under the stairs. Harry is sad because he is not loved.

Harry's life changes when he receives a letter telling him of his magic powers. He is invited to study at Hogwarts school. There Harry meets many friends and he feels very happy because he has magical adventures with his friends.

Harry's daily routine at the school is very interesting. He gets up at seven o'clock and has breakfast with all the other students at half past seven. He starts classes at eight o'clock. His first class is Astronomy and then he has Herbology. Before lunch he has Flying, outside in the school yard. Harry really likes this class. Lunch is at one o'clock. In the afternoon the students study Potions, History of Magic and Transfigurations.

After school Harry does his homework and then he plays with his friends. They go to bed at ten o'clock.
