¹ that worries people most nowadays is the environment. In the last few decades, humans have been polluting way too much, which has had a negative effect on the environment.² we must protect it from now on.

³ we ought to start paying attention to the 3 Rs: reduce, reuse and recycle.
⁴ we will reduce the quantity of rubbish, we will not throw away so many things and we will be able to recycle most of our waste.

⁵ a very good idea is to stop using cars so much and start cycling or walking a little more.⁶ instead of commuting by car, we can try to do it on foot or by bike.

⁷ if we really want to change things, we should teach young pupils about the dangers of contamination and pollution. It's the only way to change the future,⁸ they are the future citizens of the world.

⁹ I believe that if we do these three things, we can still prevent humans from destroying the environment.
