

PRACTICE FOR THE TEST

My name's Mary and I'm a kangaroo fan! I'm British and kangaroos are Australian but I love them! They're interesting animals that live in groups called troupes. They eat leaves during the day and run very fast. Their home is Eastern Australia.

Kangaroos carry their babies in a pouch. They live up to 23 years but now they are an endangered species.

They look friendly but they defend their family and they can be dangerous.

I visit a National Geographic webpage about these animals. I want to go to Australia some day and take photos of a troupe of Kangaroos!!
