Identify the type of energy shown in each picture

a) \_\_\_\_\_

b) \_\_\_\_\_

c) \_\_\_\_\_

d) \_\_\_\_\_

LIVEWORKSHEETS

Read the text and match the highlighted words to their meanings in the next picture.

## GROWING A MORE SUSTAINABLE UK

The United Kingdom is doing a lot to increase its use of **renewable** energy. It is moving away from fossil fuels and increasing the use of green energies, such as wind power, nuclear power and solar energy. New figures from the UK's electricity **provider** show that the UK had its greenest year ever in 2017 for electricity production. It even had its first coal-free day for over 150 years. Thirteen clean energy records were broken by UK in 2017. In June, wind, nuclear and solar power produced more electricity than gas and **coal** combined. It was the first time this has ever happened. The UK's power system is now the fourth cleanest in Europe and the seventh cleanest in the world.

The United Kingdom has been trying to reduce the amount of coal it uses. Coal now **supplies** less than seven per cent of the UK's electricity. It was appointed that it must now try to use less gas to make sure it meets its target for greenhouse gas **emissions**. The UK currently uses too much gas. The conservation charity World Wildlife Fund said it was pleased that the UK is moving towards **greener energy**. It said: "We have never been cleaner or greener, and we are on target for an even better year in 2018." It added: "Climate change is causing devastation on our nature and wildlife, but we are at last facing up to the challenge. We are turning our backs on polluting fossil fuels and embracing a new, clean future."

## Answer true or false according to the text

- a. \_\_\_\_\_ The UK is doing a significant effort to implement more ecological energies.
- b. \_\_\_\_\_ The UK is making less use of wind power.
- c. \_\_\_\_\_ In 2017, the UK had its first coal-free day for over 150 years.
- d. \_\_\_\_\_ The UK has the fourth cleanest energy system in the world.
- e. \_\_\_\_\_ The UK has failed in reducing the quantity of coal used.
- f. \_\_\_\_\_ The article says that nowadays the UK is using an excessive amount of gas.
- g. \_\_\_\_\_ A wildlife charity was satisfied with the UK's efforts to be greener.
- h. \_\_\_\_\_ The charity said the UK was turning its back on greener energy.

 **LIVEWORKSHEETS**

Renewable - provider - coal - supplies - emission - greener energy

1. \_\_\_\_\_ A company or organization that sells a product or service.
2. \_\_\_\_\_ The production and sending out of something, specially gas or radiation.
3. \_\_\_\_\_ A type of energy that is not gone forever when it is used.
4. \_\_\_\_\_ More eco- friendly energy.
5. \_\_\_\_\_ That generates or produces something.
6. \_\_\_\_\_ A black rock found underground deposited and burnt for hitting or power.
