

G 算一算。

1

$$\begin{array}{r} \text{RM}567 \\ \times \quad 4 \\ \hline \\ \hline \end{array}$$

2

$$\begin{array}{r} \text{RM}1\,403.20 \\ \times \quad 6 \\ \hline \\ \hline \end{array}$$

3

$$\begin{array}{r} \text{RM}375.45 \\ \times \quad 10 \\ \hline \\ \hline \end{array}$$

4

$$\begin{array}{r} \text{RM}107.55 \\ \times \quad 9 \\ \hline \\ \hline \end{array}$$

5

$$\begin{array}{r} \text{RM}4\,581.16 \\ \times \quad 2 \\ \hline \\ \hline \end{array}$$

6

$$\begin{array}{r} \text{RM}976.43 \\ \times \quad 8 \\ \hline \\ \hline \end{array}$$

7 $10 \times \text{RM}584 =$

8 $100 \times \text{RM}16.33 =$

9 $1\,000 \times \text{RM}9.25 =$

H 除除看。

1

$$4 \overline{) \text{RM}4\,564}$$

2

$$10 \overline{) \text{RM}8\,450}$$

3 $\text{RM}1\,688.75 \div 7 =$

4 $\text{RM}9\,562.50 \div 9 =$

I 用速算法完成以下算式。

1 $\text{RM}687.50 \div 10 =$

2 $\text{RM}9\,608 \div 100 =$

3 $\text{RM}8\,950 \div 1\,000 =$

4 $\text{RM}2\,684.50 \div 2 =$
