

UNIT 1 - READING WORKSHEET #9

READING COMPREHENSION SECTION #4

DATE: _____

1 Check T for *True* and F for *False*.

1. Not all archaeologists work at ancient sites.
2. Only non-biodegradable trash helps us learn about the past.
3. Biodegradable trash decomposes quickly when it is buried.

2 Read again. Reread the first paragraph. Label the tree. What does each type of archaeology study?

Archaeologists studying trash discovered in Herculaneum found lost jewelry, coins, and semi-precious stones!

3 Read and discuss. Check the main idea in each paragraph. How did you find your answers? Where do we usually find the main idea in paragraphs?

Paragraph 1

- a. ☐ Archaeology has many purposes, but it is basically about studying human history.
- b. ☐ From the 1970s to the 1990s, Dr. Rathje excavated 21 landfills.

Paragraph 2

- a. ☐ Trash found in Herculaneum told us a lot about the population.
- b. ☐ Garbology is important in the world of archaeology.

Paragraph 3

- a. ☐ Waste from the past can help us a lot today.
- b. ☐ Dr. Rathje made an important discovery about biodegradable waste.
