

## Science Test/ II Quarter Fourth Grade

Name: \_\_\_\_\_ Date: \_\_\_\_\_

### Write de concepts:

- Aquifers: \_\_\_\_\_
- Clouds: \_\_\_\_\_
- Condensation: \_\_\_\_\_
- Dew: \_\_\_\_\_
- Evaporation: \_\_\_\_\_

### Complete the concepts with the correct word

Water cycle	Runoff	Precipitation	Temperature	Vapor
-------------	--------	---------------	-------------	-------

1. \_\_\_\_\_: any form of water that falls from clouds onto Earth's surface as rain, snow, sleet, or hail.
2. \_\_\_\_\_: precipitation that is not absorbed by the soil and flows over the surface of the ground.
3. \_\_\_\_\_: a measurement of how hot or cold something is.
4. \_\_\_\_\_: the continuous cycle by which water is circulated throughout the earth and its atmosphere.
5. \_\_\_\_\_: liquid in the air in the form of a gas.

### **Answer the Questions**

1. What is evaporation?
  
  
  
  
  
  
  
  
  
  
2. What is water vapor?
  
  
  
  
  
  
  
  
  
  
3. What is a cycle?
  
  
  
  
  
  
  
  
  
  
4. What is condensation?
  
  
  
  
  
  
  
  
  
  
5. Name all the parts of the water cycle.
